Professional Profile

Full Stack Software Engineer with hands-on experience designing, developing, and maintaining scalable web applications and distributed microservices. Experienced across frontend and backend development using Java, Spring Boot, React, TypeScript, and cloud-native technologies. Strong background working with event-driven architectures, containerized applications, SQL optimization, CI/CD pipelines, observability, and Agile methodologies. Proven ability to lead technical initiatives, mentor developers, optimize business-critical workflows, and deliver reliable software solutions that improve operational efficiency.

Technical Skills

Programming Languages

Java (8/11/17/21), TypeScript, JavaScript

Frameworks

Spring Boot, React, Node.js

Message Brokers

Apache Kafka, RabbitMQ

Databases

PostgreSQL, MySQL, Oracle, MongoDB

Containers & Orchestration

Docker, Kubernetes (K8s)

CI/CD

GitHub Actions, CircleCI

Observability

Datadog

AI Technologies

LLMs, MCP, APM

Professional Experience

Full Stack Developer & Mentor - BESTSELLER, Málaga

Jul. 2026 – Present

- Leading frontend and backend mentoring activities, acting as the primary mentor for new batch of developers (3 to 4) joining the team.
- Leading the development of an end-to-end automation platform for the sample distribution process used by sales representatives after customer purchases.
- Working with large-scale datasets, query optimization, critical path analysis, and backend performance improvements across distributed microservices.

Junior Full Stack Developer - BESTSELLER, Málaga

Apr. 2025 – Jun. 2026

- Contributed to multiple business-critical projects including automation of customer order confirmations, value-added customer services, and automatic replenishment of Never Out Of Stock (NOOS) products across retail stores.
- Implemented monitoring, logging and synthetic (E2E) testing using Datadog.
- Acted as secondary mentor for new trainees, supporting their onboarding and technical development.

Trainee Full Stack Developer - BESTSELLER, Málaga

Oct. 2024 – Mar. 2025

- Contributed to React and Spring Boot applications under mentorship, gaining experience with distributed microservices and cloud-native technologies.
- Worked with Docker, Kubernetes, Kafka, RabbitMQ, PostgreSQL and MySQL in production environments.
- Participated in testing, bug fixing, code reviews and Agile ceremonies while progressively taking ownership of development tasks.

Software Engineer Intern - NTT DATA Europe & LATAM, Málaga

Mar. 2024 – May 2024

- Developed ETL processes using PL/SQL.
- Built business dashboards using Tableau and Qlik Sense.

Education

Master's Degree in DevOps

Nov. 2026 – Sept. 2027
(Expected)

- Expected graduation: September 2027.

Bachelor's Degree in Computer Science, University of Málaga

Sept. 2019 – Nov. 2024

- Honors in Web Engineering and Cognition & Communication in Software Engineering.
